

Turn to the experts

We've created an HVAC system so powerful, the benefits are universal.

### Carrier AquaEdge® 19DV Water-Cooled Centrifugal Chiller – the ultimate solution for efficient cooling and heating.

For years, experts have implemented multiple types of cooling and heating equipment to achieve optimal performance, efficiency, reliability and control. But now Carrier delivers it all with one incredibly groundbreaking system. The all-new 19DV Water-Cooled Centrifugal Chiller offers several innovative features, incredible versatility and a full-system approach including cooling, free cooling and heat recovery. It's the ultimate BTU machine – a universal piece of equipment that's enabling intelligent HVAC design and changing the way you think about mechanical systems for good.

- EquiDrive™ Two-Stage Compressor
- SmartView™ Controls
- SMART Service
- Totally Enclosed VFD
