

Carrier AquaForce® 30XB air cooled screw chillers

The right solution **for every application**

The new Carrier AquaForce® 30XB screw air cooled chillers are designed in compliance with the European Ecodesign initiative which limits environmental impact and reduces energy consumption without the need to compromise on comfort. Available in capacities from 250 to 1700 kw, the AquaForce® 30XB range finds exclusive use in both process and comfort cooling.

Wide Application range

Operating temperatures from -20°C to 55°C ensure perfect solution in high-end office buildings and hotels to healthcare facilities, data centers and industrial projects.

Absolute reliability

99.7% of units without compressor failure.

Compact footprint

25% smaller footprint leaves more space for commercial use.

Low sound levels

93dB(A) ensures negligible noise pollution.

Environmental responsibility

Up to 40% less refrigerant charge.
